

## NOTICE OF PUBLIC OPEN HOUSE NO. 1 6th Line Interchange Municipal Class Environmental Assessment

The Town of Innisfil has initiated a Class Environmental Assessment (EA) for a proposed interchange at 6th Line and Highway 400.

The 6th Line Interchange project is being planned as Schedule C project under the Municipal Class Environmental Assessment (2007) process, as amended in 2011 and 2015. The EA Study will confirm project need and justification, document existing environmental conditions, examine alternatives and define the interchange design.

The EA will review the Town's Transportation Master Plan to confirm it satisfies Phases 1 and 2 of the Municipal Class EA for a Schedule C study, and will

complete Phases 3 and 4 of the Class EA for the proposed interchange. The Municipal Class EA will engage the public in determining a recommended plan for improvements.

A draft Study Design is available on the Town of Innisfil web site [www.innisfil.ca/6th-line-interchange-ea](http://www.innisfil.ca/6th-line-interchange-ea). The Study Design describes the project scope, study approach, need and justification of the study, study process and preliminary design criteria.

Information on the project will be presented on display boards and Study Team Members will be available to answer questions and receive comments at the first Public Open House (POH) meeting to be held as follows:

**Tuesday, June 7, 2016**  
**Town Hall Community Rooms**  
**2101 Innisfil Beach Road, Innisfil, Ontario**  
**4:00 pm – 7:00 pm**

There is an opportunity at any time during the EA process for interested persons to provide comments. Any comments received pertaining to the study will be collected under the *Environmental Assessment Act* and, with the exception of personal information (*Freedom of Information and Protection of Privacy Act*) will become part of the public record.

For more information, to provide comments or if you wish to be placed on the study's mailing list, please contact:
